

# Job Description

## Systems Developer

*Meadean is a specialist management consultancy that provides strategic advice and targeted, effective solutions. We offer appropriate, innovative, value for money consulting and IT services that deliver lasting business benefits to clients.*

*Our consultants have advised a range of commercial organisations and governments, both in the UK and internationally. In particular, we offer considerable insight into delivering organisational benefits in sectors where benefits are traditionally difficult to extract; such as competitive energy markets and the criminal justice system.*

---

### Role Description

Meadean is expanding, which provides opportunity for someone to join us at an exciting time. We are looking to enhance our services and are already developing a unique piece of web-based software that has a potentially huge market. Our practical requirements are:

- Website design
- Database development and integration with websites
- Microsoft Office application development (using Microsoft Access and Excel)
- The ability to manage projects to successful completion

In addition, we are keen to employ someone who shares our vision in terms of delivering quality services to our customers and has strong communication, analysis and written skills and will be comfortable working in a professional environment.

### Location

Your location is negotiable and so you may be able to regularly work from home. However, our business and clients mean that you must be willing to work away from home for periods of time.

### Remuneration

£15-25k, depending on experience.

---

To apply, please send your CV and a covering letter which describes how your skills and experience will enhance the services that Meadean provides to:

*Jonathan Jennings, Consulting Director, Lavender House, 16 Brookhaven, Broughton, Northants, UK, NN14 1RU or email [jonathan@meadean.com](mailto:jonathan@meadean.com).*
